

## SERIES 2000 LONG RANGE INDUCTIVE PROXIMITY SENORS APPLICATION NOTES

### Application: Spacing of Series 2000 Non-Flush Sensors with Conveyor Rollers.

**Description:** A non-shielded Non-Flush Series 2000 Proximity sensor can only be flush mounted if it has a relief area around it to ensure proper operation.

A special consideration must be made for non-shielded proximity sensors used in roller bed conveyors as shown in the illustration above.

## MODULOC SENSORS - BUILT TO LAST
